

How do I get tested for COVID-19?

Local public health agencies are working with federal partners to provide testing to Harris County residents who need COVID-19. It is particularly important to seek testing if you are at high-risk, have come into contact with someone who tested positive, or you have symptoms. Most cases of COVID-19 can be cared for at home.

1 How to Sign Up for Testing

You can sign up for a test by calling **832-927-7575** or by visiting <http://covidcheck.hctx.net> to complete our brief questionnaire. Complete the brief online survey, choose your testing site location and time, receive your code and go to the testing site.

2 Travelling to Your Testing Site

Once you have completed the questionnaire, you will receive a unique ID code. Please arrive at your assigned testing location on time and be sure to bring your unique ID. You can and will be tested regardless of your insurance status.

Please do not come with passengers that do not have a code from one of our nurses. They will not receive a test.
