## **The Woodlands Township begins cul-de-sac maintenance**

THE WOODLANDS, TEXAS (March 31, 2022) – Cul-de-sac maintenance is underway by The Woodlands Township. Currently, The Woodlands Township maintains 1,352 small cul-de-sacs, 261 jumbo cul-de-sacs and 130 intracts.

Based on the approval by the Township Board of Directors in 2021, all cul-de-sacs and intracts will be maintained by in-house crews starting in the Spring of 2022.

The Township's maintenance philosophy for cul-de-sacs is to allow the areas to be in harmony with nature, which over time should allow them to grow and mature into a forested area. Keeping that philosophy in mind, Township crews will maintain those areas to the following standards:

- Mowing and trimming turf
- Edging around curbs and pathways
- Blowing
- Removal of natural debris and trash
- Pruning street growth up to 14 feet
- Trimming growth around the mailboxes, light poles and other approved structures

Service does not provide:

- Clearing of vegetation or brush
- Removal of healthy non-hazardous trees
- Maintenance of enhanced landscape plantings
- Chemical weed control
- Fertilization
- Irrigation
- Maintenance of hardscapes, decomposed granite, gravel, or other non-natural surfaces

Small cul-de-sacs will receive one (1) maintenance visit per year and jumbo cul-de-sacs/intracts receive eleven (11) maintenance visits per year. We encourage residents to contact the Township if they have questions or concerns about cul-de-sacs or intracts by calling 281-210-3900 or emailing [mkillian@thewoodlandstowship-tx.gov](mailto:mkillian@thewoodlandstowship-tx.gov).
