- **Vendor name:** CwResC
- **Website:** cwresc.webs.com
- **Product:** 2-(4-iodo-2,5-dimethoxyphenyl)-N-[(2-methoxyphenyl)methyl]ethanamine (25I-NBOMe) CAS number: 919797-19-6
- **Price:** 50mg for 40 USD or 40 EUR
- **Appearance:** Fine white powder
- **Quantity received:** 50mg
- **Delivery time:** 10 days (from USA to Spain)
- **Packaging:** Large hard US mail international envelope containing smaller envelope containing baggy with chemical
- **Marquis test results:** Not tested
- **Dose tested:** 1mg
-
- **POSITIVE** = This Vendor is to be trusted. Great product. Prices are very competitive. As far as we know CwResC is also the only US vendor with NBOMe.
- **NEGATIVE** = This vendor has got a great product and does what he says. No nonsense and at prices that you can't beat. The only thing that is a slight drawback is the lack of different payment methods.
- **COMMENTS:** It's hard to come by a vendor that sells pure NBOMe in powder at these great prices. Highly recommended, especially for US based customers that are looking for a good deal on 25I-NBOMe.
- **VERDICT:** 8/10

- Sold in 200-1000 milligrams
- Dosage for a “hit” is generally 200-600 micrograms
- Generally sold in powder form, but can be used as a vapor or liquid
- 1 milligram = 1 grain of salt = overdose
- Inexpensive to purchase, make or buy from dealer (100 “hits” - \$100-\$125)
