### *Why it's a good idea*

Turf grass, particularly St. Augustine, naturally goes dormant during winter months and uses all available energy to grow and strengthen the root system. Allowing grass to brown during the cool months results in healthier lawns with less disease in the spring.

### *Refer others*

Help your village earn more points. After you have made your family's pledge, refer 2 friends within your village. When they take the challenge and pledge, your village earns even more points!

## *Your village could be the Water-Wise winner!*

The Water-Wise Village Challenge Winners will be announced in May, 2019.
