

Neighborhood Watch

Hands Only CPR Village Challenge

Host a Training for your Neighborhood or Organization

The Woodlands Township Neighborhood Watch invites you to participate in the Village Challenge for Hands Only CPR training. The Villages with the top three percentages of residents trained will receive a donation for their scholarship fund from our program sponsors.

- Each year more than 350,000 people will suffer from sudden cardiac arrest outside of a medical facility.
- Every minute that someone goes without CPR, their chance of survival decreases by as much as 10 percent.
- Nationwide, only about 4 victims out of 10 will receive CPR from a bystander.

In 2008, The American Heart Association released new CPR Guidelines to include the option of Hands Only CPR (without breath interventions).

Village Challenge Details:

Village Challenge sponsored by

1. The Village Challenge will run until October 15, 2018.
2. The Top Three villages with the highest percentage of residents trained will earn: 1st place \$1000; 2nd place \$700; and 3rd place \$300.
3. Training does not include certification.
4. The Village Challenge is offered by The Woodlands Township Neighborhood Watch in collaboration with the Woodlands Fire Department, Montgomery County Hospital District, and the American Heart Association.

To schedule training for your organization, please contact The Woodlands Township
