

What do I need to participate in Operation I.D.?

- Your Texas driver's license number
- An engraver kit from Neighborhood Services
- A place to record objects' serial numbers

Why does Operation I.D. work?

- Texas pawn shops cannot buy marked property without identification, making it difficult for burglars to re-sell the stolen property.
- If the burglar is caught, marked property is solid evidence of possession of stolen property.
- Often the presence of the Operation I.D. sticker alone is enough to deter a burglar
- If recovered, you can easily identify your marked possessions.

How do I participate in Operation I.D.?

Step One

Call the Neighborhood Services Department at 281-210-3800 to check out an engraver kit. Engrave all large valuables, such as electronics, with your driver's license number, preceded by and followed by your state abbreviation.

For example: TX12345678TX

Step Two

Record all serial numbers of your large valuables on the inside of this pamphlet.

Step Three

Take a photograph of all your small valuables, such as jewelry, and place the photos with the pamphlet in a secure place. Keep this pamphlet in a safe place, such as a safe deposit box or a safe.

Operation I.D.

A resident participation program to protect your valuables at home and at work!
